

Referral List of Local Providers

Here is a list of some area providers. Program offerings and phone numbers do change occasionally. Please contact the provider directly to determine if they currently provide the needed service. In addition, I recommend you check directly with your insurance company to determine your coverage for the provider you select. Please feel free to contact my office if you note an error or know of a local provider that is not listed.

Wishing you the best,

Dorothy Rado, LCSW, LMFT, ACSW
